**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am proud to support our broadband provider, Ideatek. They have provided excellent, local service and customer support. They provide jobs for a small rural area. When I call customer service, I am able to speak with an American who speaks English, not someone from India or Malaysia.

Also, we have fiber optic now, and with seven people in our household using the internet, this is critical! We would go days without internet service when we were with AT&T. My kids would have to find a coffee shop to use their wifi to get their homework done. Now we have no worries about our internet connection.

Keep our prices down and keep our internet and phone services local! We support Ideatek!
